

Why It's Important For Captives To **Manage Cancer?**

High Costs

Cancer is the #1 and #2 high-cost claim which occurs in the captive level of risk.

Consistent Captive Language

Cancer costs can be managed with structure & definition.

Setting Treatment Standards

Ensure treatments are evidence-based and follow NCCN® Guidelines.

Better Outcomes

Groups who join captives seek best outcomes as a cost solution.

CancerCARE : The Nation's #1 Cancer Solution

ParetoHealth. CancerCARE+

Benefit Plan Language with Incentives

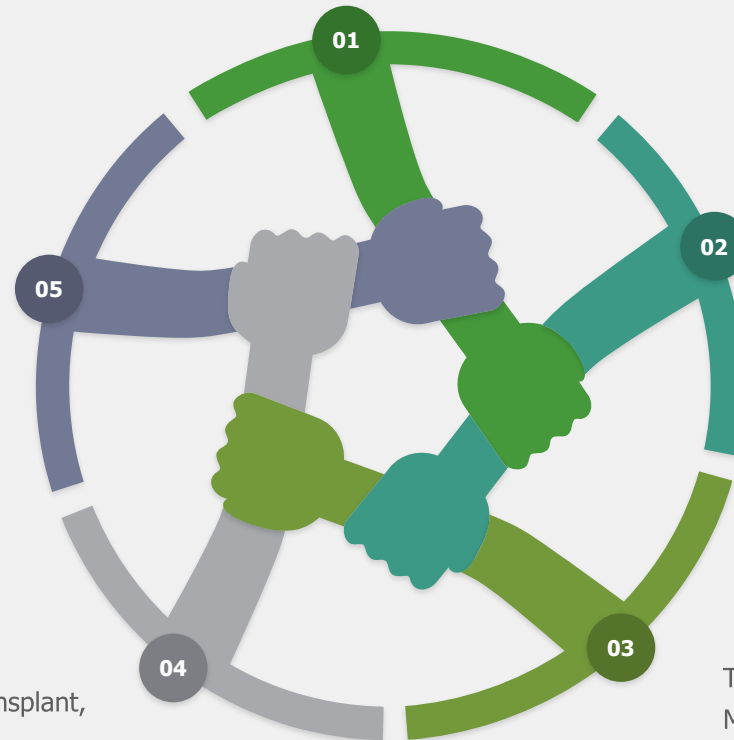

Cancer patients are under stress and uncertainty, to guarantee a newly diagnosed person registers some companies have incentives.

Personalized Guideline Care

Each patient will have their course of care reviewed and put into a guideline management software program.

COE Specialized Care

Mainly used for Clinical Trial, Procedure, Transplant, Surgery or rare guideline management.

Diagnosis Second Opinions

28% of cancers are misdiagnosed /mis-staged. Top misdiagnosed cancer slides are sent to a COE for an automatic second opinion.

Medical Experts

Top medical professionals including RN, CCM, MD that will assist in patients treatment.
